

IXL Skill Alignment

3rd Grade alignment for Math Expressions Common Core

Use IXL's interactive skill plan to get up-to-date skill alignments, assign skills to your students, and track progress.

www.ixl.com/math/skill-plans/math-expressions-2018-3rd-grade

This document includes the IXL® skill alignments to Houghton Mifflin Harcourt's **Math Expressions Common Core** curriculum. IXL provides skill alignments as a service to teachers, students, and parents. The skill alignments are provided by IXL and are not affiliated with, sponsored by, reviewed, approved or endorsed by Houghton Mifflin Harcourt or any other third party. Unit 1

Multiplication and Division with 0-5, 9, and 10

Big Idea 1: Meanings of Multiplication and Division: 5s and 2s

Textbook section	IXL skills
1-1: Multiply with 5	<ol style="list-style-type: none"> 1. Relate addition and multiplication for equal groups 8VB 2. Multiply by 5 Y9E
1-2: Multiplication as Equal Groups	<ol style="list-style-type: none"> 1. Count equal groups TUS 2. Write multiplication sentences for equal groups: factors up to 5 XWC <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Identify multiplication expressions for equal groups 9AE • Relate addition and multiplication P74 • Skip-counting LQM
1-3: Multiplication and Arrays	<ol style="list-style-type: none"> 1. Identify multiplication expressions for arrays HZL 2. Write multiplication sentences for arrays 5FZ <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Identify repeated addition in arrays: sums to 25 ER2 • Write multiplication sentences for number lines NTV
1-4: The Meaning of Division	<ol style="list-style-type: none"> 1. Relate multiplication and division for equal groups 27Y 2. Divide by 5 C9M <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Relate multiplication and division 67L • Divide by counting equal groups UYK

1-5: Multiply and Divide with 2

1. Even or odd U9Q
2. Multiply by 2 94M
3. Divide by 2 ANU

1-6: Build Fluency with 2s and 5s

1. Multiply and divide by 2 and 5 CPH

Big Idea 2: Patterns and Strategies: 9s and 10s**Textbook section****IXL skills****1-7:** Multiply and Divide with 10

1. Multiply by 10 6YD
2. Divide by 10 YRG

Also consider

- Solve for the variable: multiplication and division only AL9
- Write variable equations to represent word problems: multiplication and division only ZNN

1-8: Multiply and Divide with 9

1. Multiply by 9 SUH
2. Divide by 9 RTB

1-9: Build Fluency with 2s, 5s, 9s, and 10s

1. Multiply and divide by 2, 5, 9, and 10 RND

Also consider

- Relate multiplication and division for arrays XSK
- Write division sentences for arrays 8RW

Big Idea 3: Strategies for Factors and Products: 3s and 4s**Textbook section****IXL skills****1-10:** Multiply and Divide with 3

1. Multiply by 3 38K
2. Divide by 3 PCL

1-11: Multiplication and Area

1. Use multiplication to find the area of a rectangle made of unit squares LC6
2. Make arrays to model multiplication PPR

Also consider

- Distributive property: find the missing factor 7VP

1-12: Multiply and Divide with 4

1. Multiply by 4 5U6
2. Divide by 4 QGT

Also consider

- Write multiplication sentences for equal groups V98
- Write division sentences for groups FSX

1-13: Use the Strategy Cards

1. Multiplication word problems: factors up to 5 HDU
2. Division word problems: divisors and quotients up to 5 CFR

Also consider

- Multiplication and division facts up to 5: true or false? 6HS

1-14: Build Fluency with 2s, 3s, 4s, 5s, 9s, and 10s

1. Multiply and divide by 2, 3, 4, 5, 9, and 10 92E

Also consider

- Multiplication facts for 2, 3, 4, 5, and 10: find the missing factor ZEY

Big Idea 4: Multiply with 1 and 0**Textbook section****IXL skills****1-15: Multiply and Divide with 1 and 0**

1. Multiply and divide with 1 and 0 XWR
2. Properties of multiplication MPE
3. Properties of addition NY2
4. Solve using properties of multiplication YPF

1-16: Solve and Create Word Problems

1. Multiplication and division word problems: factors up to 5 7HS

1-17: Practice Multiplication and Division

1. Division facts for 2, 3, 4, 5, and 10: true or false? YSD
2. Multiplication facts for 2, 3, 4, 5, and 10: true or false? 87M
3. Division facts for 2, 3, 4, 5, and 10: sorting XDN
4. Multiplication facts for 2, 3, 4, 5, and 10: sorting REN

1-18: Build Fluency with 0s, 1s, 2s, 3s, 4s, 5s, 9s, and 10s

1. Multiply and divide with 0, 1, 2, 3, 4, 5, 9, and 10 GQE

1-19: Focus on Mathematical Practices

1. Create rectangles with a given area V73

Unit 2

Multiplication and Division with 6s, 7s, and 8s and Multiply with Multiples of 10

Big Idea 1: The Remaining Multiplications

Textbook section	IXL skills
2-1: Multiply and Divide with 6	<ol style="list-style-type: none"> Multiply by 6 SX6 Divide by 6 97S
2-2: Solve Area Word Problems	<ol style="list-style-type: none"> Multiply to find the area of a rectangle made of unit squares S7G Find the area of rectangles: word problems 5HA
2-3: Multiply and Divide with 8	<ol style="list-style-type: none"> Multiply by 8 SMR Divide by 8 CVD
2-4: Write Word Problems and Equations	<ol style="list-style-type: none"> Multiplication word problems 9TA Division word problems ECS
2-5: Multiply and Divide with 7	<ol style="list-style-type: none"> Multiply by 7 9PT Divide by 7 D2F
2-6: Square Numbers	<ol style="list-style-type: none"> Squares up to 10 x 10 GMM
2-7: Practice with 6s, 7s, and 8s	<ol style="list-style-type: none"> Multiplication tables for 6, 7, 8, and 9 XT7 Division facts for 6, 7, 8, and 9 U2C Multiplication facts for 6, 7, 8, and 9: sorting TZ7 Division facts for 6, 7, 8, and 9: sorting KQR <p><i>Also consider</i></p> <ul style="list-style-type: none"> Multiplication facts for 6, 7, 8, and 9: find the missing factor X7N Multiplication facts for 6, 7, 8, and 9: true or false? EEY Division facts for 6, 7, 8, and 9: true or false? DBB

2-8: Build Fluency with 0s - 10s

1. Multiplication tables up to 10 PNV
2. Division facts up to 10 M8T
3. Multiplication facts up to 10: find the missing factor FZA
4. Division facts up to 10: find the missing number HE7

Also consider

- Multiplication input/output tables 8CM
- Division input/output tables RK9

Big Idea 2: Problem Solving and Multiples of 10

Textbook section	IXL skills
2-9: Equations and Word Problems	<ol style="list-style-type: none"> 1. Multiplication and division word problems 85K 2. Multiplication word problems: find the missing factor F6C
2-10: Write First-Step Questions for Two-Step Problems	<ol style="list-style-type: none"> 1. Perform multiple operations with whole numbers UKB 2. Understanding parentheses AYY
2-11: Make Sense of Two-Step Word Problems	<ol style="list-style-type: none"> 1. Two-step multiplication and division word problems 8FP
2-12: Multiply with Multiples of 10	<ol style="list-style-type: none"> 1. Multiply by a multiple of ten MS6
2-13: Play Multiplication and Division Games	<ol style="list-style-type: none"> 1. Multiplication facts up to 10: sorting SUJ 2. Division facts up to 10: sorting CYJ 3. Multiplication input/output tables: find the rule D5U 4. Division input/output tables: find the rule 4Z8
2-14: Build Fluency with 0s-10s	<ol style="list-style-type: none"> 1. Multiplication facts up to 10: true or false? 3K8 2. Division facts up to 10: true or false? MPV 3. Multiplication facts up to 10: select the missing factors WZA 4. Division facts up to 10: select the missing numbers FPA
2-15: Focus on Mathematical Practices	<ol style="list-style-type: none"> 1. Multiply whole numbers in recipes PSK

Unit 3

Multidigit Addition and Subtraction

Big Idea 1: Understand Place Value and Rounding

Textbook section	IXL skills
3-1: Make Place Value Drawings	1. Place value models up to thousands DDS
3-2: Build Numbers	1. Value of a digit: up to thousands 3M7 <i>Also consider</i> • Place value names up to thousands GEV
3-3: Place Value in Word Problems	1. Write numbers in words 2GW 2. Convert between standard and expanded form: up to 10,000 FDT <i>Also consider</i> • Convert to/from a number KSN
3-4: Practice with Place Value	1. Write numbers using place value PT9 <i>Also consider</i> • Place value word problems 5TF
3-5: Round to the Nearest Hundred	1. Round to the nearest hundred BWN 2. Estimate sums by rounding to the nearest hundred: word problems EYT
3-6: Round to the Nearest Ten	1. Rounding - nearest ten or hundred only Q65 2. Estimate sums and differences MTL 3. Estimate sums and differences: word problems BU8 <i>Also consider</i> • Round using a number line - nearest ten or hundred 6ST • Round to the nearest ten JDN

Big Idea 2: Addition and Subtraction Strategies and Group to Add

Textbook section	IXL skills
3-7: Explore Multidigit Addition	1. Add two numbers up to three digits: word problems QU2
3-8: Discuss Addition Methods	1. Add two numbers up to three digits using place value BMH <i>Also consider</i> • Add two numbers up to three digits E83
3-9: The Grouping Concept in Addition	1. Add three-digit numbers: with regrouping 9NH <i>Also consider</i> • Addition input/output tables: up to three digits MUE
3-10: Practice Addition	1. Add data from tables: up to three digits MYM <i>Also consider</i> • Add three numbers up to three digits each GSY

Big Idea 3: Ungroup to Subtract

Textbook section	IXL skills
3-11: Ungroup to Subtract	1. Subtract numbers up to three digits EHT
3-12: Subtract Across Zeros	1. Subtract across zeros 93U
3-13: Discuss Methods of Subtracting	1. Subtract three-digit numbers: regroup tens and hundreds WR8
3-14: Relate Addition and Subtraction	1. Relate addition and subtraction sentences NYD <i>Also consider</i> • Addition up to three digits: fill in the missing digits LYB • Subtraction: fill in the missing digits V63

3-15: Subtraction Practice

1. Subtract numbers up to three digits: word problems K88

Also consider

- Subtraction input/output tables: up to three digits J9S

3-16: Addition and Subtraction Practice

1. Add and subtract three-digit numbers 2TD
2. Addition and subtraction word problems XSH

3-17: Solve Word Problems

1. Two-step addition and subtraction word problems CBA

3-18: Focus on Mathematical Practices

1. Add three numbers up to three digits each: word problems NPU

Unit 4

Fractions, Time, and Data

Big Idea 1: Fraction Concepts

Textbook section	IXL skills
4-1: Understand Fractions	<ol style="list-style-type: none"> 1. Make halves, thirds, fourths, sixths, and eighths JHE 2. Match unit fractions to models CPK 3. Understand fractions: fraction bars 6JL 4. Decompose fractions into unit fractions using models P75 <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Unit fractions: modeling word problems UV8
4-2: Model Fractions	<ol style="list-style-type: none"> 1. Show fractions: fraction bars ZPW 2. Identify fractions on number lines AWH <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Identify unit fractions on number lines JVC • Match fractions to models YHL
4-3: Locate Fractions on the Number Line	<ol style="list-style-type: none"> 1. Graph unit fractions on number lines CBW 2. Graph fractions on number lines 7QM 3. Graph fractions equivalent to 1 on number lines 7BL <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Fractions of number lines J8M
4-4: Compare Unit Fractions	<ol style="list-style-type: none"> 1. Compare unit fractions HVV <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Graph smaller or larger fractions on a number line 2PH
4-5: Compare Fractions	<ol style="list-style-type: none"> 1. Compare fractions using models MJ2 2. Compare fractions 78D

Also consider

- Compare fractions using number lines 38T
- Order fractions GBA

4-6: Customary Units of Length

1. Measure using an inch ruler LC2
2. Create line plots with fractions YUR

Also consider

- Which customary unit of length is appropriate? WRB

Big Idea 2: Time**Textbook section****IXL skills****4-7:** Tell Time

1. Match clocks and times LPT
2. Match analog and digital clocks L5U
3. Read clocks and write times 5ZQ

Also consider

- A.M. or P.M. MUC

4-8: Before and After the Hour

1. Write times EQS

4-9: Elapsed Time

1. Elapsed time: find the end time U7B
2. Find the elapsed time SCQ
3. Elapsed time word problems: find the end time 5VC
4. Elapsed time word problems: find the elapsed time V9D

4-10: Add and Subtract Time

1. Find start and end times: two-step word problems C95

4-11: Solve Word Problems Involving Time

1. Time word problems: find the start, end, or elapsed time MNY

Big Idea 3: Pictographs, Bar Graphs, and Line Plots

Textbook section	IXL skills
4-12: Read and Create Pictographs and Bar Graphs	<ol style="list-style-type: none">1. Create pictographs AVG2. Interpret pictographs Y5D3. Create bar graphs RPF4. Interpret bar graphs V54 <p><i>Also consider</i></p> <ul style="list-style-type: none">• Read a table DE2
4-13: Read and Create Bar Graphs with Multidigit Numbers	<ol style="list-style-type: none">1. Create bar graphs: multi-digit numbers WYL2. Interpret bar graphs: multi-digit numbers UP6
4-14: Represent and Organize Data	<ol style="list-style-type: none">1. Interpret tally charts 8CW2. Create frequency charts 9TG3. Interpret frequency charts 5KV4. Create line plots H5J5. Interpret line plots YXD
4-15: Use Graphs to Solve Time and Measurement Word Problems	<ol style="list-style-type: none">1. Use bar graphs to solve problems BCJ
4-16: Focus on Mathematical Practices	<ol style="list-style-type: none">1. Create and interpret line plots with fractions B8Q

Unit 5

Measurement and Fractions

Big Idea 1: Area and Perimeter

Textbook section	IXL skills
5-1: Perimeter and Area	<ol style="list-style-type: none"> 1. Perimeter of figures on grids TQP 2. Area of figures on grids J93 3. Tile a rectangle and find the area EKK 4. Find the area of rectangles and squares 8KJ <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Select figures with a given area XR6
5-2: Side Lengths with Area and Perimeter	<ol style="list-style-type: none"> 1. Area and perimeter of rectangles: find the missing side length SBU 2. Find the missing side length of a rectangle: word problems DKC <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Perimeter of rectangles ZJT
5-3: Compare Areas and Perimeters	<ol style="list-style-type: none"> 1. Relationship between area and perimeter: find the perimeter ZWF 2. Relationship between area and perimeter: find the area KNR <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Select two figures with the same area 7GW • Compare area and perimeter of two figures PMF
5-4: Area of Rectilinear Figures	<ol style="list-style-type: none"> 1. Find the areas of complex figures by dividing them into rectangles DVB <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Find the area of complex figures SGP • Perimeter of rectilinear shapes 65Z
5-5: Solve Perimeter and Area Problems	<ol style="list-style-type: none"> 1. Find the area, perimeter, or side length: word problems KD8

5-6: Tangram Shapes and Area

1. Compose two-dimensional shapes AES

Also consider

- Create figures with a given area Z2H

Big Idea 2: Equivalent Fractions**Textbook section****IXL skills****5-7: Introduce Equivalence**

1. Find equivalent fractions using area models: two models ZJ2
2. Find equivalent fractions using area models: one model 6DY

5-8: Equivalent Fractions

1. Identify equivalent fractions on number lines HYM
2. Find equivalent fractions using number lines JL8
3. Find equivalent fractions WMX

Also consider

- Identify equivalent fractions 7DA

5-9: Problem Solving with Fractions

1. Compare fractions in recipes 9BK

5-10: Focus on Mathematical Practices

1. Make halves, thirds, and fourths in different ways DXJ
2. Fractions of a whole: modeling word problems 9PU

Unit 6

Write Equations to Solve Word Problems

Big Idea 1: Types of Word Problems

Textbook section	IXL skills
6-1: Addition and Subtraction Situations	<ol style="list-style-type: none"> 1. Identify equations DW9 2. Balance addition equations: up to three digits 7PE 3. Balance subtraction equations: up to three digits 8VK
6-2: Word Problems with Unknown Addends or Unknown Factors	<ol style="list-style-type: none"> 1. Solve for the variable D65 2. Write variable equations to represent word problems: multiplication and division only ZNN <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Solve for the variable: addition and subtraction only BQT • Solve for the variable: multiplication and division only AL9
6-3: Word Problems with Unknown Starts	<ol style="list-style-type: none"> 1. Complete the addition sentence: up to three digits D69 2. Complete the subtraction sentence: up to three digits MD8 <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Addition, subtraction, multiplication, and division word problems X8W
6-4: Comparison Problems	<ol style="list-style-type: none"> 1. Compare numbers: up to 10,000 D2N 2. Order numbers: up to 10,000 M5T <p><i>Also consider</i></p> <ul style="list-style-type: none"> • Comparison word problems with addition and subtraction 5L2 • Which number is greatest/least? ELP
6-5: Comparison Problems with Misleading Language	<ol style="list-style-type: none"> 1. Comparison word problems: addition or multiplication? A52

6-6: Word Problems with Extra, Hidden, or Not Enough Information

Big Idea 2: Solve Two-Step Word Problems

Textbook section	IXL skills
6-7: Write First-Step Questions for Two-Step Problems	1. Write variable equations to represent word problems U6P
6-8: Solve Two-Step Word Problems	1. Two-step word problems: identify reasonable answers V5A
6-9: Equations and Two-Step Word Problems	
6-10: Practice with Two-Step Word Problems	1. Two-step mixed operation word problems SRL
6-11: Focus on Mathematical Practices	

Unit 7

Measurement and Polygons

Big Idea 1: Capacity, Weight, and Mass

Textbook section	IXL skills
7-1: Customary Units of Liquid Volume	1. Which unit of volume is appropriate: ounces, cups, pints, quarts, or gallons? FMR
7-2: Metric Units of Liquid Volume	1. Which metric unit of volume is appropriate? LYS
7-3: Customary Units of Weight and Metric Units of Mass	1. Which customary unit of weight is appropriate? GK8 2. Which metric unit of weight is appropriate? PTF
7-4: Solve Word Problems Involving Liquid Volume and Mass	1. Measurement word problems VPW <i>Also consider</i> • Choose the appropriate measuring tool FTA

Big Idea 2: Analyzing Triangles and Quadrilaterals

Textbook section	IXL skills
7-5: Triangles	1. Angles greater than, less than, or equal to a right angle 2YR 2. Is it a polygon? C2P 3. Identify two-dimensional shapes JBT <i>Also consider</i> • Acute, obtuse, and right triangles LRU • Scalene, isosceles, and equilateral triangles CXV • Count and compare sides and vertices GWA
7-6: Parallelograms, Rectangles, Squares, and Rhombuses	1. Identify parallelograms V6L 2. Identify rhombuses ZSD 3. Identify rectangles 47T 4. Identify trapezoids 67A

Also consider

- Parallel sides in quadrilaterals 6E9

7-7: Draw Quadrilaterals

1. Draw quadrilaterals 5KS

7-8: Classify Quadrilaterals

1. Classify quadrilaterals CNJ
2. Parallel sides in quadrilaterals 6E9

7-9: Focus on Mathematical Practices

1. Use area and perimeter to determine cost 8H8
-
