

# IXL Recommendations

Every student on IXL has a personalized Recommendations wall full of skills that have been specifically selected to help them grow.

---

## RECOMMENDATION TYPES

There are 5 types of recommendations and each one will help your students develop in a different way:

### Work It Out

Have a learner that's stuck on a skill? Have them work on these building block skills to solidify foundational concepts.

### Keep At It

These are skills that students are making progress in but haven't yet reached excellence (SmartScore of 90).

### Go For Gold

When a student has demonstrated excellence in a skill, these recommendations will encourage them to reach for mastery.

### Next Up

Extend your student's knowledge with Next Up recommendations, which build upon the skills they've already learned.

### Try Something New

Encourage your students to explore these new skills or topics they haven't practiced yet.

---

## IMPLEMENTATION INSPIRATION

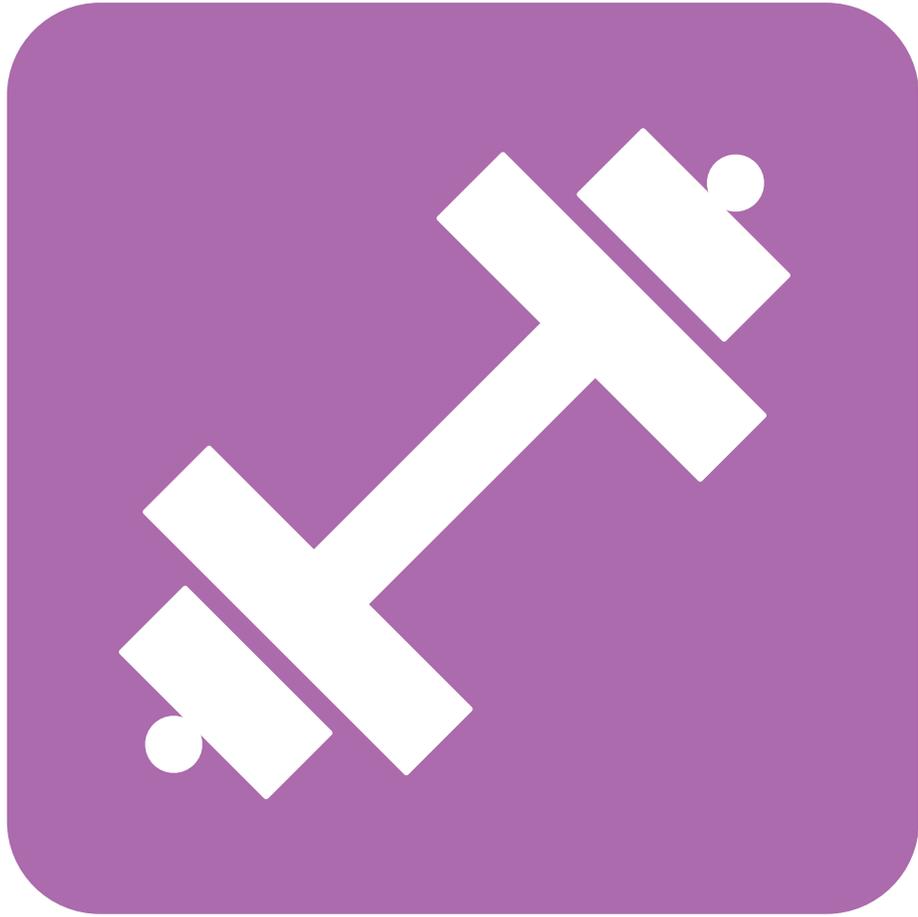

The Recommendations wall is a great option for early finishers, small group instruction, bell work, or when you have a substitute. You can even get inventive and make a theme for the day, such as Try Something New Tuesday or Work it Out Wednesday.

---

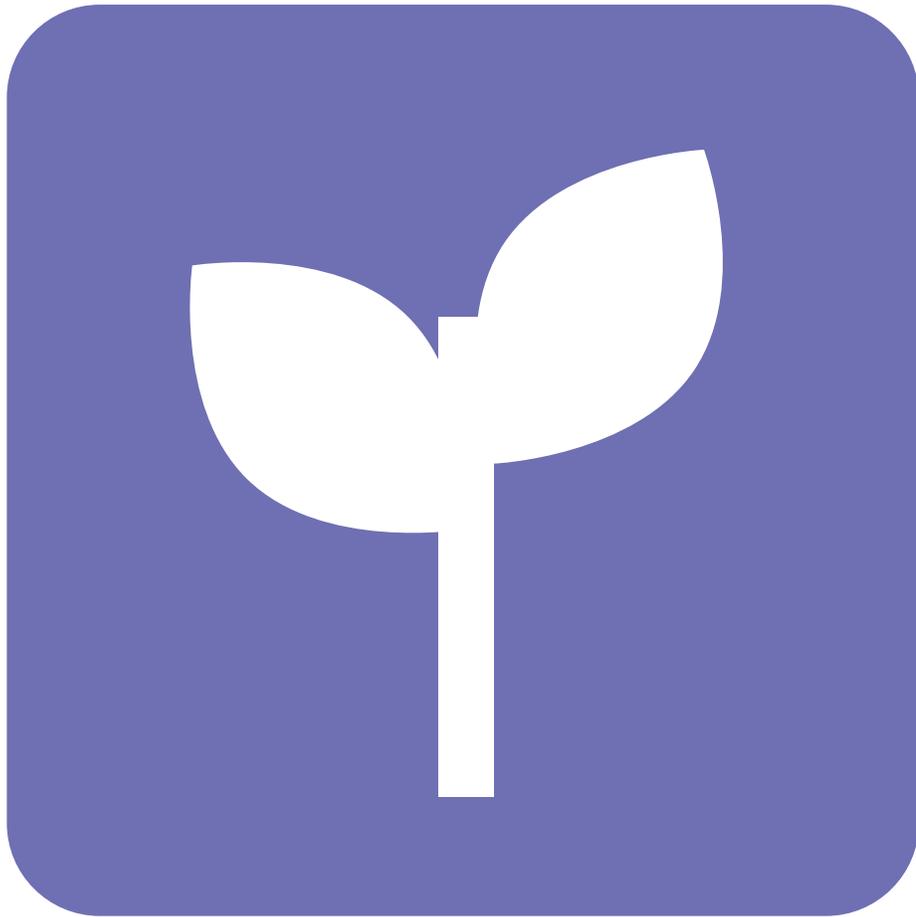

## POST IT!

Display these posters in your classroom to help students understand the different recommendations types or to show them which type you'll be working on that day!

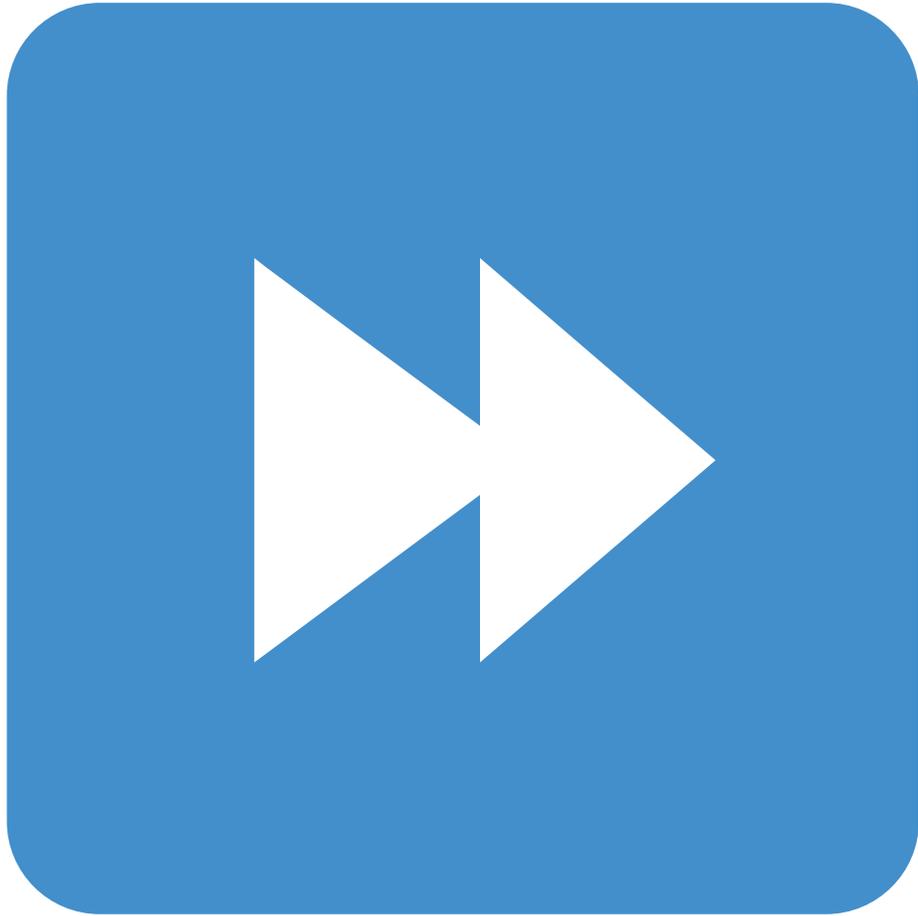

**WORK IT OUT**

**KEEP AT IT**

**GO FOR GOLD**

**NEXT UP**
