

NEW!

# The IXL LevelUp™ Math Benchmark Assessment

A Guide For Administrators

In the 2024-2025 school year, schools and districts can leverage a new, advanced assessment for K-8 math. The IXL LevelUp™ Math Benchmark Assessment is scientifically advanced, can be administered in no more than an hour (typically less), has enhanced reporting, and is available in Spanish. And, it can be used in Real-Time mode to refine students' scores and recommendations in between benchmark windows.

## What will the new experience look like?

For Fall 2024, you'll have two diagnostic assessments:

1

NEW!

**The IXL LevelUp™ Math Benchmark for K-8**

2

**The IXL Classic Diagnostic\* for 9-12 math and K-12 ELA**

*\*Previously known as the Real-Time Diagnostic*

- Your IXL account will automatically feature the IXL LevelUp™ Math Benchmark as the default for math K-8. However, you may still opt to use the Classic Diagnostic for math K-8 instead (e.g., if it's on your state's approved list, or as a convenience) by toggling it on within your admin account settings.
- If you start the school year with the IXL LevelUp™ Benchmark and then decide to revert back to the Classic Diagnostic for K-8 math, you'll be able to do so for the first month of your school year. Beyond that point, we're happy to assist you.

The new IXL LevelUp™ Math Benchmark is an exciting update, and we're here to guide you as you begin taking advantage of it! While we strongly recommend that you use the IXL LevelUp™ Benchmark for math K-8, we support you in choosing the IXL assessment that best meets your needs.

**To learn more, reach out to your [Account Manager](#) or call us at 855-255-8800.**

The Math Benchmark is just one part of IXL's comprehensive **IXL LevelUp™ Assessment Suite** that includes benchmarking, real-time diagnostic tools, universal screeners, and common assessments across K-12 ELA and math.
