

IXL Spanish Language Arts

Provide an outstanding and equitable education in Spanish literacy

IXL supports Spanish language learning in bilingual and dual-language programs, whether students speak Spanish at home, grow up bilingually, come from English-only backgrounds, or bring other home languages to their Spanish learning.

IXL Spanish Language Arts for grades PreK-5 is available with IXL Language Arts subscriptions. All content in IXL SLA is **original and authentic**, created from the ground up with the same quality and rigor as our award-winning ELA curriculum.

¿Qué imagen concuerda con el significado de la **metáfora**?

Durante la fiesta de cumpleaños de Sanjay, su sala era una lata de sardinas.

Nurture real progress in Spanish

Enable students to **build foundational reading and literacy skills in Spanish**, whether or not they're native speakers. IXL's reading skills **teach phonics explicitly and systematically**, guiding students through simple concepts to complex ones. At the same time, IXL's rich, rigorous language arts content **prepares students for real-world writing** while helping them expand their knowledge of the world.

Streamline the teaching and learning experience

Teachers can quickly find the material they need to fit their lesson plans, as our **Spanish Language Arts curriculum is aligned with Common Core en Español**. Students using IXL for SLA and ELA receive a consistent learning experience across languages and grade levels, helping to **streamline schoolwide collaboration and maximize impact**.

Empower independent Spanish learning

IXL gives students what they need to make progress on their own, including **comprehensive video tutorials** that feature fun and friendly Spanish-speaking tutors. Skills come with **in-the-moment support** and **targeted resources for self-remediation**, which is a lifesaver for teachers who don't speak Spanish themselves.

Las calles de la ciudad eran como una ruidosa colmena.
