

IXL is an effective partner for driving learning recovery by identifying needs, providing targeted remediation, and building mastery.

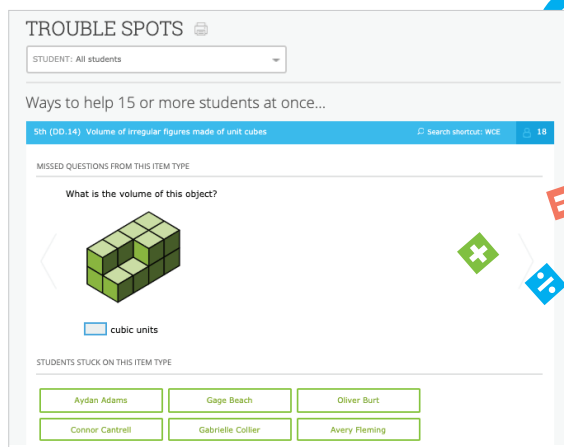

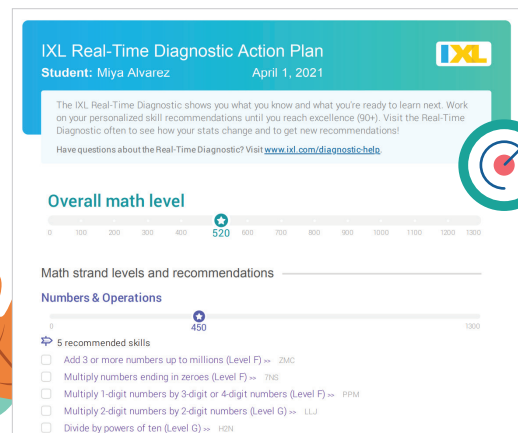

## SUPPORT YOUR STANDARDS-BASED INSTRUCTION

IXL's curriculum is built on 8,500+ skills that unpack every concept into scaffolded building blocks. With multiple skills for each topic, teachers can target specific areas of need to help students master essential state standards.

## PINPOINT LEARNING LOSS IN REAL TIME

IXL's Real-Time Diagnostic provides a comprehensive assessment of student knowledge levels, showing precisely what they already understand and where they still have room to grow.

Each student receives a personalized action plan with just-right skills to help them fill knowledge gaps.

## PROVIDE DATA-DRIVEN INSTRUCTION

The **Trouble Spots** report identifies groups of students struggling with the same concepts. It prioritizes the biggest problem areas and makes it easy for teachers to break students into leveled groups.
