

IXL's LMS integrations create a fluid experience for schools and districts, making it simple to set up and use IXL's award-winning personalized learning platform.

Seamless access

- Our integrations make it easy to fit IXL into your technology ecosystem, granting a direct, single point of entry from your LMS to IXL.
- Educators can assign coursework based on IXL skills, get on-demand, real-time assessment data, and access other important IXL features directly from your LMS.
- With single sign-on and roster matching capabilities, teachers and students can focus on learning, rather than logistics.

Easy setup

The integrations can be set up in minutes with no technical expertise required. You will be supported by a world-class IXL team along the way.

IMS GLOBAL

Safe and certified

IXL is IMS Global LTI Advantage certified and uses LTI, the highest standard of privacy and security.

IXL supports integrations with:

Brightspace

Canvas

Schoolology
