

IXL for English Language Learners

IXL is proven to help schools drive academic gains for English language learners at all levels.

IXL's personalized learning platform provides the tools needed to help English language learners build confidence and reach new heights:

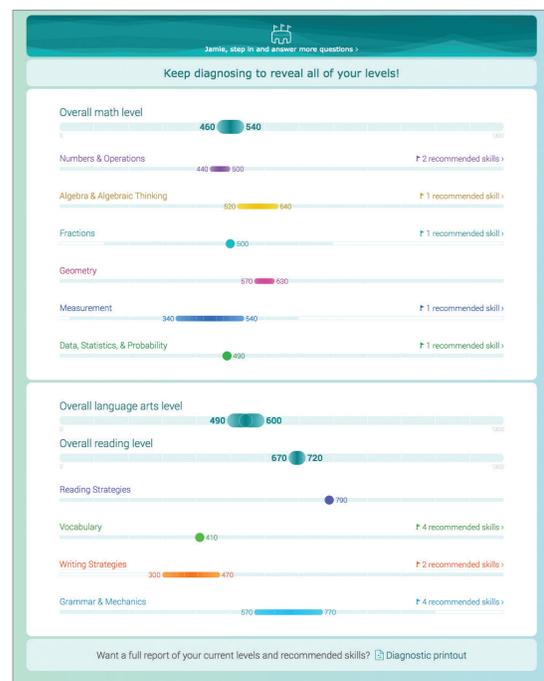

- Ongoing analysis of each student's unique needs
- Accessible curriculum to support targeted, personalized instruction
- Actionable analytics to help teachers meet students where they are

UNDERSTAND EACH LEARNER'S UNIQUE NEEDS WITH THE IXL CONTINUOUS DIAGNOSTIC

Each English language learner has a unique profile of strengths and weaknesses, and the first step in supporting them is knowing where they're at.

The IXL Continuous Diagnostic works quietly in the background to deliver insights on student understanding across the entire K-12 continuum. By assessing students down to the strand level, the Continuous Diagnostic makes it easy to see where they stand on grade level objectives in math and English language arts.

IXL's Continuous Diagnostic takes it a step further and identifies the precise skills that will help each student grow. With a personalized action plan for each English language learner, teachers have what they need to fill knowledge gaps and help students make progress.

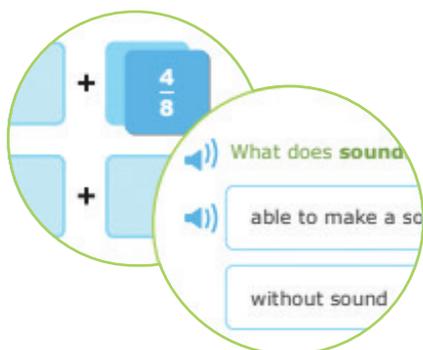

DELIVER TARGETED, ACCESSIBLE INSTRUCTION WITH THE IXL CURRICULUM

Meet any learning need from pre-K to 12th grade

IXL has spent 10 years building a comprehensive curriculum designed to support any learning need. Learners on IXL have access to the complete pre-K to 12th grade curriculum, ensuring that they can remediate in lower grade levels whenever needed, and work back up to grade level when they are ready.

Build confidence with the right supports

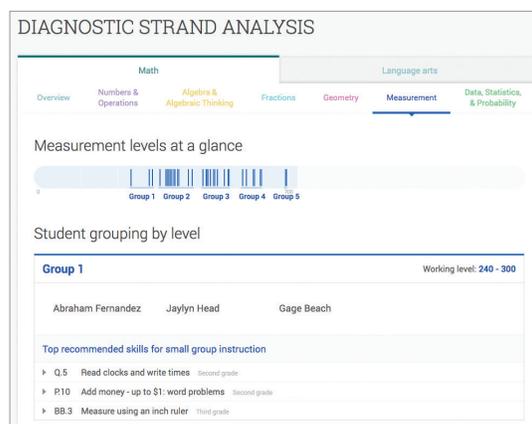

The IXL curriculum offers more than 7,000 skills, each one providing an accessible, targeted learning experience for students. Within each skill, questions are adaptive, automatically giving English language learners critical scaffolding they need to build understanding at their own pace. Engaging interactions, as well as visual and audio support, make topics more accessible to students at every level and motivate them to continue learning.

REACH EVERY STUDENT AT THE RIGHT LEVEL WITH ACTIONABLE ANALYTICS

IXL Analytics empowers teachers with a deep understanding of their English language learners' needs, and actionable next steps for helping them achieve more.

Understand student knowledge

IXL's Diagnostic Strand Analysis provides insight on students' grade-level proficiency in critical learning objectives. This report takes care of small-group lesson planning for your teachers, identifying students with similar levels and showing the best skill recommendations for each group.

TROUBLE SPOTS

STUDENT: Edgar Beasley

Ways to help Edgar right now...

5-LL.1 Correct capitalization errors

MISSED QUESTIONS FROM THIS ITEM TYPE

Click to correct the four capitalization errors.

Grandpa stephanopoulos grew up in a small greek village on the mediterranean sea.

Diagnose trouble spots

The Student Trouble Spots report is an essential tool for supporting English language learners. In seconds, teachers can uncover individual areas of struggle for each student and see recommended item types for review and reteaching.

Provide targeted 1-1 support

IXL's Questions Log gives teachers in-depth information on a student's work in a single skill. For teachers supporting English language learners, the Questions Log helps them figure out exactly why a student might be struggling so that they can provide targeted 1-1 remediation.
