

IXL for Response to Intervention

Proven to drive positive learning outcomes for all students, IXL is an effective partner for your tiered intervention programs.

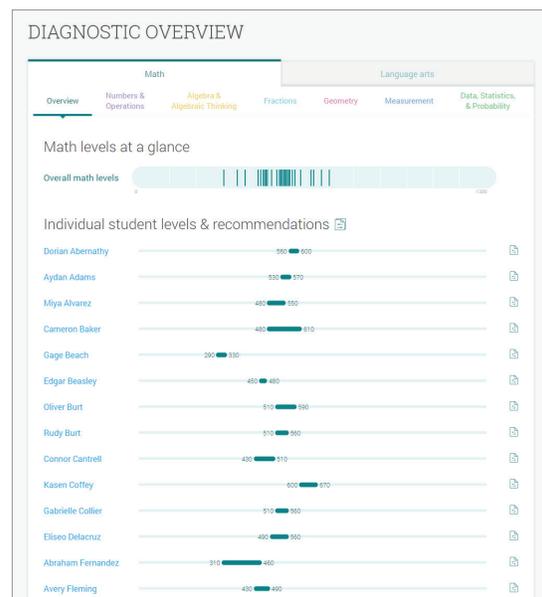

IXL's integrated personalized learning platform provides you with the tools you need for RTI:

- Ongoing progress monitoring to evaluate students' needs
- High-quality curriculum resources for tiered instruction
- Data to drive instructional decisions at each tier

ACCESS ONGOING PROGRESS MONITORING WITH IXL'S CONTINUOUS DIAGNOSTIC

IXL's Continuous Diagnostic analyzes students' grade level proficiency overall and in key math and ELA strands, so that you can quickly determine which students require intensive intervention.

Even better, the Continuous Diagnostic charts a continuous record of students' abilities throughout the year, giving you insights on your students that are accurate every single day.

DIFFERENTIATE INSTRUCTION IN EVERY TIER WITH IXL'S CURRICULUM AND GUIDANCE

The Common Core in Illinois

Skills available for Illinois third-grade math standards

Standards are in black and IXL math skills are in dark green. Hold your mouse over the name of a skill to view a sample question. Click on the name of a skill to practice that skill.

C.3.OA.1 Interpret products of whole numbers, e.g., interpret 5×7 as the total number of objects in 5 groups of 7 objects each.

- Count equal groups (3-E.1)
- Identify multiplication expressions for equal groups (3-E.2)
- Write multiplication sentences for equal groups (3-E.3)
- Relate addition and multiplication for equal groups (3-E.4)
- Identify multiplication expressions for arrays (3-E.5)
- Write multiplication sentences for arrays (3-E.6)
- Make arrays to model multiplication (3-E.7)
- Write multiplication sentences for number lines (3-E.8)
- Relate addition and multiplication (3-N.9)

3.OA.2 Interpret whole-number quotients of whole numbers, e.g., interpret $56 \div 8$ as the number of objects in each share when 56 objects are partitioned equally into 8 shares, or as a number of shares when 56 objects are partitioned into equal shares of 8 objects each.

- Divide by counting equal groups (3-1.1)
- Write division sentences for groups (3-1.2)
- Write division sentences for arrays (3-1.4)

Comprehensive curriculum supports your standards

IXL's curriculum is built on 7,000+ skills that unpack every concept into scaffolded building blocks. With multiple skills for each topic, teachers can target specific areas of need to help students master essential state standards.

And, every skill is deeply adaptive, with up to 12 levels of scaffolding in each skill that students progress through. This ensures students are always working at the right difficulty level and getting the right support.

Personalize instruction with IXL's targeted guidance

Based on the learning needs and knowledge gaps identified by the Continuous Diagnostic, IXL generates a unique Recommendations wall for each student. The page is filled with specific skill suggestions to help students bridge knowledge deficits, strive for mastery, extend their knowledge, and more. With this guidance, it's easy for teachers to provide students with the appropriate learning opportunities.

Recommendations

Student: Gordon Alexandrov

Here are all the math and language arts skills recommended just for you, based on what you've been working on recently. Explore the different types of recommendations, and click on any skill you'd like to try!

Read asked twenty-three classmates to vote for their favorite type of pet. He made a tally chart of their responses.

Which animal did more people vote for, dogs or rabbits?

dogs

rabbits

Keep at it Last practiced on May 19

R.1 Interpret tally charts and tables - Second grade (19)

Express the relation below as a graph.

Click to plot points on the graph. Some of the points have already been plotted for you.

Go for gold Challenge zone reached on January 22

Q.1 Relations: convert between tables, graphs, mappings, and lists of points - Algebra 1 (9)

You spin the spinner, pick a card, roll a die, and find the sum. How many different sums are possible?

try something new

J.3 Compound events: find the number of outcomes - Algebra 1

Is this a sentence fragment?

Since Sean's doctor diagnosed his vitamin B deficiency and he began supplementing his diet.

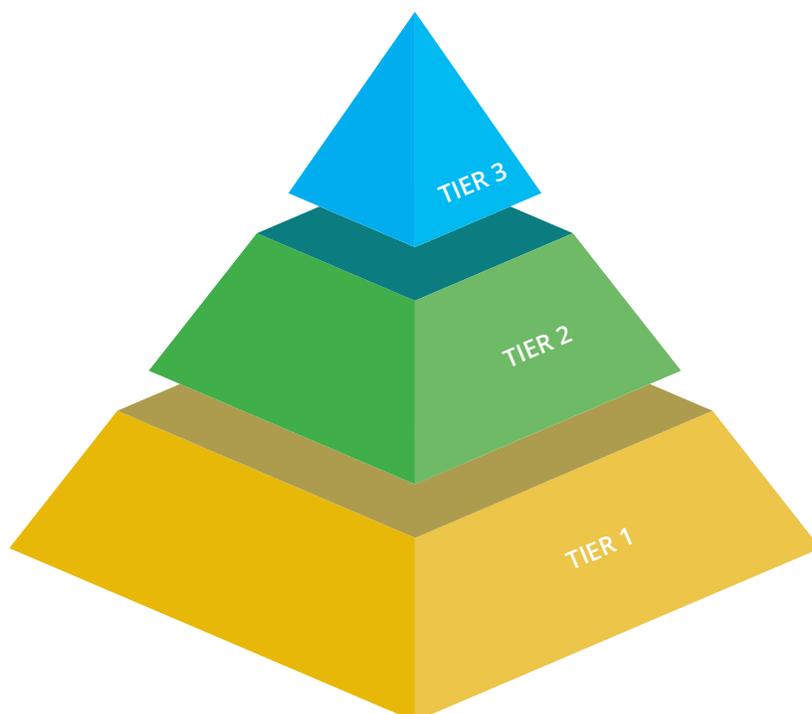

yes no

Next up Because you excelled in Z.2 on October 6, 2017

T.1 Identify sentence fragments - Eleventh grade

USE IXL ANALYTICS TO INFORM INSTRUCTION AT ALL LEVELS OF INTERVENTION

IXL Analytics offers actionable insights that help teachers provide timely, differentiated instruction at each tier. Our reports include:

TIER 3 **Student Details**

For intensive interventions, the Student Details report offers deep insights about student knowledge. Teachers can drill into each student's practice patterns and performance to uncover the exact reasons why they are struggling.

TIER 2 **Trouble Spots**

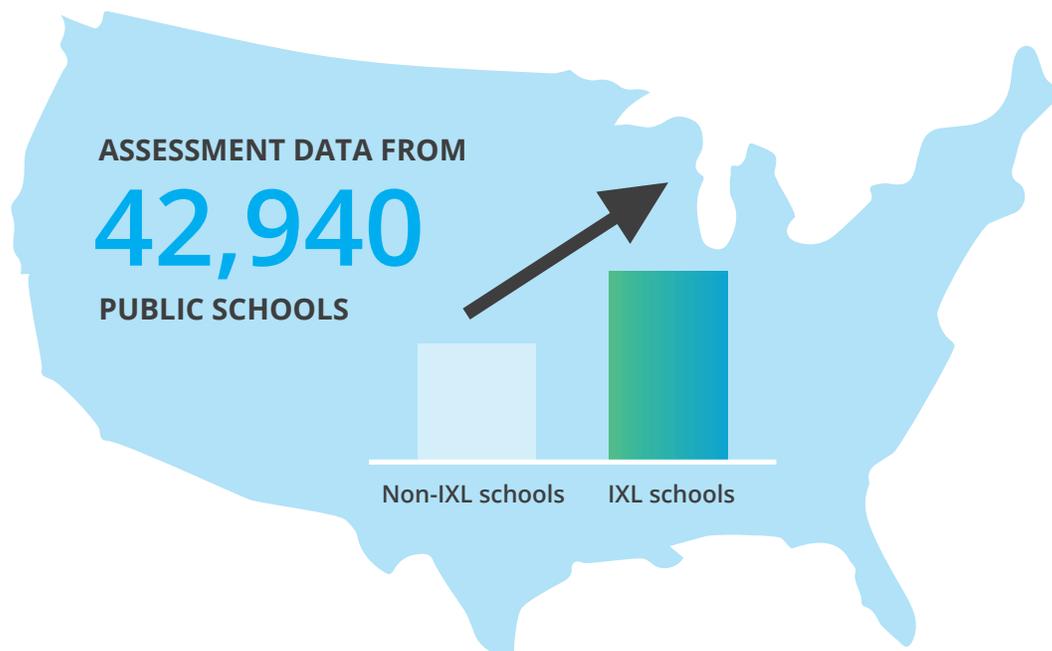

This report illuminates the specific skills and question types that students are struggling with most, and groups students struggling with the same concept, making it easy to plan for small-group instruction and intervention time.

TIER 1 **Score Grid**

The Score Grid is like a digital gradebook that supports you in monitoring progress of the goals and expectations you have set for students in each skill or standard.

IXL'S EVIDENCE-BASED LEARNING PLATFORM LEADS TO SUCCESS FOR ALL STUDENTS

In 12 statewide efficacy studies, results consistently showed that schools using IXL outperform schools using any other product or method.

The studies examined state assessment data from all 42,940 public schools in these states, and all schools using IXL were included in the study regardless of their amount of usage or methods of implementation. Even so, IXL schools scored higher on math and language arts, by as much as 16 percentile points.

The data is clear: IXL boosts performance for all students.
