Analytics
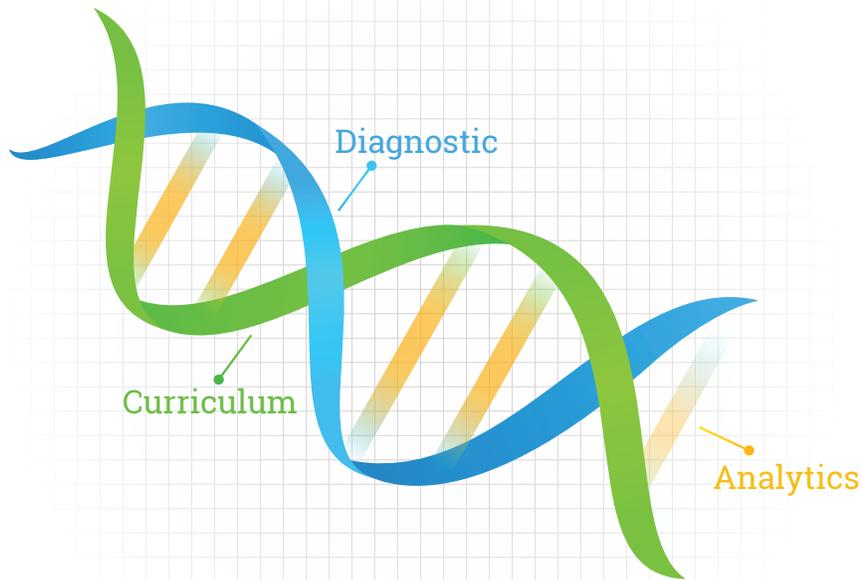

ABOUT IXL

IXL is an integrated personalized learning platform that is proven to improve learning outcomes for all students. IXL's Continuous Diagnostic, comprehensive K-12 curriculum and guidance, and actionable real-time Analytics work together seamlessly to give teachers everything they need to differentiate instruction and help students grow.

Continuous Diagnostic

The IXL Continuous Diagnostic is an innovative new way to help teachers understand student learning. Rather than assessing students once, the Continuous Diagnostic is constantly working in the background to gain insight on student knowledge. It provides up-to-the-minute diagnostic information and generates personalized action plans for each student. With this information, teachers always know how to differentiate their instruction and support every learner.

Comprehensive Curriculum And Guidance

IXL has spent 10 years building the most comprehensive curriculum in existence. With 7,000+ skills covering math, English language arts, science, social studies, and Spanish, IXL can support any learning need from pre-K through 12th grade. Each IXL skill is carefully scaffolded and adapts to learners as they grow, ensuring they're supported and challenged at the right moments. IXL also generates personalized guidance for each student based on their work in IXL. These skill suggestions point students toward the exact skills they need to excel.

Actionable Analytics

IXL Analytics is an essential daily tool that makes data-driven instruction possible for any teacher. Easy-to-use and intuitive reports help teachers monitor classroom performance and growth, pinpoint trouble spots in real time, and group students with similar needs—giving teachers better data and actionable next steps to impact student learning. For administrators, IXL offers a clear measure of progress at the district, school, class, and individual level.

IMPLEMENTATION MODELS

Schools around the world are using IXL's flexible platform to provide personalized support in a variety of settings:

- Whole-class instruction
- Blended learning and flipped classrooms
- Homework
- Intervention
- English language learner support
- Computer lab
- One-to-one
- Standards preparation
- ...and more!

To read case studies on the many ways IXL can be implemented to enhance student learning, please visit: www.ixl.com/casestudies

COMMON CORE AND STATE STANDARDS ALIGNMENTS

IXL is aligned to the Common Core State Standards, the Next Generation Science Standards, and standards for all 50 U.S. states, the District of Columbia and DoDEA. IXL unpacks each standard into the exact IXL skills that support it, helping teachers easily select skills and drive progress. In addition, teachers can monitor their students' state standards readiness throughout the year and ensure that their classes are on the right track. To find alignments to your state standards, please visit: www.ixl.com/standards

PROVEN RESULTS ON STATE ASSESSMENTS

IXL is proven to help students achieve meaningful gains: in studies covering over 42,000 schools in 12 states, results consistently showed that IXL schools outperformed all others on state assessments. IXL's comprehensive standards alignments help students deepen their knowledge of each learning objective. And, with rigorous problem types that are designed to meet the demands of the PARCC and Smarter Balanced assessment items, IXL fully prepares students for the format of the exams. PROFESSIONAL LEARNING

IXL is proud to provide a broad range of professional development opportunities for educators. Our professional development packages are customized to meet your school's needs and include live webinars, on-site trainings, on-demand videos, and personalized consulting from IXL's instructional specialists. To learn more, please visit:
www.ixl.com/professional-learning

TECH INTEGRATION

IXL is designed to integrate easily with your existing technology. To get started with IXL, all students need is a computer, tablet, or phone with a connection to the Internet! IXL works seamlessly with your student information system to keep rosters updated, and offers Google single sign-on for effortless schoolwide access. And, our dedicated Account Services team is on-hand to support you during the onboarding process and throughout the year.

MOBILE: IXL FOR IPAD, IPHONE, ANDROID, AND KINDLE

IXL's software has been tailor-made for the mobile experience, combining all the functionality of our website and a host of unique tablet-only features. Whether you have a few tablets, a full-fledged 1:1 initiative, or just student tablet access at home, IXL can make learning an on-the-go experience.

PARENT INVOLVEMENT

IXL is committed to helping teachers and parents build a strong connection between home and school. With at-home access to IXL, parents can track their child's progress using intuitive reports from IXL Analytics. As students reinforce the skills they learn in school, parents have the tools they need to provide support and guidance at home.
